The Great Rebellion.  
From a late copy of the San Francisco Bulletin, received by the Glimpse, we take the following interesting items relative to the United States rebellion, contained in its New York correspondence:

FAMINE PRICES AT RICHMOND.  
"How are you off for fodder?" is a question which strikes me it would have been sensible in Jefferson Davis to have asked of his Virginia co-conspirators before he resolved on sending his 10,000 troops to the vicinity of Richmond. According to all the accounts we have, the supply of provisions in that region, for both man and beast, is exceeding scarce, and very near the starvation point. A reliable gentleman who arrived here yesterday from Richmond, states that the people in that city are beginning to realize the meaning of "fodder" prices. The imminent probability of early hostilities has sent up the prices of every article of food. Everything is very scarce, and consequently prices range exceeding high. Potatoes cannot be obtained under \$2 per bushel; butter brings 50 cents to 60 cents per pound; sugar, which used to be sold at from 8 cents to 10 cents, now readily brings from 20 cents to 25 cents per pound, and half water at that; sides of bacon are worth from 22 cents to 23 cents per pound; and hams readily sell at from 25 to 27 cents. All these articles are in very small supply. Wheat flour is sold from \$8 to \$10 per barrel; but as a good deal of this article is manufactured on the spot, it is not so very scarce. Business is altogether suspended. An ordinary spool of cotton, usually worth one or two cents. Most of the stores only keep open from 9 till 10 o'clock. Everybody is enlisting and going to drill. Fodder is very scarce, and the authorities are making every effort to obtain it. Hay is worth \$2 per 100 pounds. Shell corn sells at \$1 per bushel, and cornmeal at \$1 50. Chickens and half-grown hens readily command \$1 a piece. Prices of horses and cattle are very high. Specie, as might be expected, is exceedingly scarce, and is worth a premium of from 12 to 15 per cent.

STATE OF AFFAIRS AT FORT MONROE.  
Sergeant McDermott, who arrived in this city on Thursday, direct from Fort Monroe, reports that the garrison at that point is in the best of health, and the fortress impregnable against all attack. A report was brought to Com. Pendergrast, on board the Cumberland, that the stolen steamers Yorktown and Jamestown were all ready for sea, having been thoroughly protected around the water-line by iron plates. They were also heavily armed, and intended to avail themselves of the first dark night to run the blockade and get outside. They hoped to capture the steamer Monticello, now guarding the James river, and use her for the purpose of taking the Quaker City and others of the blockading fleet. The Commodore, however, was keeping a bright look-out for these piratical craft, and as the Cumberland lies direct in the channel, south of Old Point, the night will have to be very dark to permit their escape. The rebels have heavy batteries planted at Cumming's Point, on James River, 5 miles distant from Monroe. Their tents line the whole bank of the river, and can be seen from the ramparts of the fort. Commander Dimmick is strengthening the land-side of Monroe by mounting 19-inch Columbiads, and protecting the same with sand bags. The narrow neck of land which connects the fortress with the village of Hampton is to be cut through, so as to allow the tide to have a natural channel-way. This will add materially to the natural defenses of the place. The Secession flag waves over Hampton, in plain sight of the United States garrison, and a strong cavalry guard of Virginians confronts the United States pickets at the drawbridge. They are literally face to face with each other. The rebels have 65-pounders mounted on their batteries, are also strengthening their batteries. They evidently expect to make another Sumter affair of Monroe.

ONE OF THE WISES BARBAROUSLY USED.  
A letter from Philadelphia relates the following incident:  
The Rev. Henry A. Wise, Jr., who has been preaching the gospel according to Slavery in an Episcopal church in this city for the last two years, has been compelled to evacuate. He made it hot to hold him. He is a son of John Brown's henchman. He went into a barber's shop to be shaved, sat down and was operated on to the extent of one side of his face. He then remarked, in reference to the crisis, that "one Virginian is worth three Northerners," adding the hope that the latter would be flogged. The barber took fire at this jousting remark, laid down his razor and turned the fellow into the street, half-shaved and in his shirt sleeves. Here one of his congregation met him, got a carriage, took him home, and advised him to keep quiet. But this is a thing the Wises were not born to. However, he changed his lodgings by way of safety, and did not preach the next day. Some additionally offensive language so incensed even his clerical friends, that they deemed it unsafe for him to remain longer, and he went off between two days.  
In contrast with this, is the example of Rev. Dr. Duane, rector of St. Stephen's, a man of advanced years and vastly rich, who has offered to go as a chaplain of any regiment that may need his services. But that is the difference between a Philadelphian and a Virginian—one all patriotism, the other all treason.  
VAN AMBURG OFFERS \$5,000 FOR JEFF DAVIS "ALIVE."  
Here is another incident told of Van Amburg, the lion-tamer; One day last week, while on his way with his show to the eastern shore of Maryland, Van Amburg was suddenly intercepted by an express-rider, sent on by a friend, who notified him that the rebels had laid plans to seize his horses, of which he had 120, shoot his wild animals, and send him adrift. He immediately turned about, and by traveling 38 miles in one day, got safely

into Pennsylvania with all his property. Van Amburg now advertises that he will give \$5,000 to any one who will take Jeff Davis alive, pledging himself, if he gets him into his keeping, to furnish him with a brand-new cage, and take him through the country on exhibition as a traitor, whose turpitude is second only to that of Judas Iscariot.

NOT MEN, BUT ARMS WANTED.  
It is not men, just now, so much as means of equipment, that is wanted. We have already mustered in this city more men than we can arm efficiently. There is reason to believe, however, that the arms are nearly at hand, as advices have been received from the agent of the State, who went out to England some weeks ago to purchase in that country a half million dollars worth. He had succeeded in purchasing many rifled cannon, and 4000 or 5000 Minnie rifles. When these arms come forward, several thousand troops in a body, from among the regiments which are now lying idle here for the want of arms.

THE X. Y. FIRE BOYS IN CAMP.  
Despite the intolerable rain which in superabundant torrents fell this morning, Col. Ellsworth, followed by his 1200 "pet lambs," this morning vacated his quarters at the Capitol, and marched to his encampment. For the first time their band appeared with them on parade before starting. The boys were delighted with the music, and after an inspiring touch of Hail Columbia and Yankee Doodle, gave three rip-roaring cheers for their recent accession; after which they proceeded 50 abreast to the place assigned them by the commandant of the district. This is in the neighborhood of the Insane Asylum, called by them "The Crazy House," with the leaders of which they have arranged to exchange their flour rations for bread, for the making of which that institution is very celebrated.

UGLY TALES OF THE SECESSIONISTS.  
Some of the secessionists are proving themselves to be perfect Seps in their modes of warfare, and if caught, the culprits should meet the Sepoy's doom, to wit: a flight into eternity from the mouth of a 24-pounder. The stories of their many attempts at murder by poison are too well authenticated to be doubted for a moment. According to a despatch from Annapolis in one of the morning journals, it would seem that creeping assassination is a method of warfare adopted by them. Last evening, says the despatch, one of the soldiers of the New York Thirtieth Regiment was stabbed in the breast by a man in citizen's dress, who crept into the yard at the Academy stealthily. The alarm was given to the sentinel, who fired upon the man, but he escaped in the darkness.

A NEW ORLEANS DEBTOR AND HIS PHILADELPHIA CREDIT.  
Our Northern merchants continue to receive the amount of their bills against their Southern customers in secession currency. Here is the answer received to a dunning letter by a Philadelphia firm. Their debtor letters in New Orleans: "Our note to you for 10,000, due this day, will not be paid. We have lent the money to the Confederate States, and you may go to —."  
SUPPOSED PLAN OF THE SECESSIONISTS AT PENSACOLA.  
A letter from an officer on board one of the United States vessels at Pensacola, to the N. Y. Times, discloses the important fact that the rebels in possession there, intend, in case they are likely to be worsted in an encounter with the Federal forces, to destroy Pensacola, Warrington and the Navy Yard, by blowing up and burning. This has been ascertained through spies, who assert that the powder has already been placed and the trains laid for the purpose. Warrington is said to be now entirely deserted by its inhabitants, and the houses are occupied by rebel soldiers.

Cuttings from European Papers.  
There are nearly thirty thousand blind people in Great Britain.  
Dumas and a newspaper editor, an Italian, were about to fight a duel, last accounts.  
"Think of 'emancipated multitudes' dying in India! Sacre! doesn't it express famine?"  
Gaeta has one memorable circumstance connected with its history. It was there that Cicero was assassinated.

Bentley, the London publisher, has induced Mrs. Yelverton—the unlabeled one—to write a book. What a bright thought in Bentley.  
The London Review says that Dr. Brownson is "the ablest lay writer among the Roman Catholics, whether in the United States or the British Empire."

A steam carriage for common roads, invented by General Bordini, has been exhibited in the streets of Turin, carrying twelve people, easily managed, but evolving clouds of smoke.  
There is yet living a lime tree in New street, Shoe Lane, London, called Dr. Johnson's tree, once on the property of Mr. Strahan, his great friend. This tree, it is said, he was in the habit of looking at and "hugging."

A young actress in Milan lately fell in love with a priest, and told him at the confessional the secret of her heart. He recommended contrition for the "mortal sin," and poor Rachel drank arsenic. Frenchy, wasn't it?  
Miss Grace Everton is a young and handsome English Actress, who personates six male and six female characters in one piece, (some of them French and some English,) with a clog dance by a country bumpkin. One of the Stanley school is she?

The last notch of extravagance has been reached by a Russian lady, for whom a Parisian couturiere has just "built" a dress consuming two hundred and fifty yards of silk and lace! Price—ten thousand francs!  
Lord Seymour, upon leaving Venice, was searched by the police, who felt in his pockets. He "tumbled" on the "shoulder," and struck the policeman a blow with his fist, said Austria was worse than Turkey, and swore roundly he would write to his minister about the insult.

William Smith O'Brien has settled down in his pretty country seat at Cahernoye, where he discusses, for his own amusement, the affairs of the world. Mr. O'Brien is an "esteemed gentleman," his income from landed property amounting to \$45,000 annually.

Fuel is very costly in Paris. French coal is of inferior quality, and the mines are inconvenient of access and distant. Wood is chiefly used in families, and very sparingly, the price being half a cent a pound, and the quantity poor, mostly small sticks of beech wood.

It is announced that a deputation of Maronites had lately arrived in Paris for the purpose of petitioning the Emperor, in the name of the Christian population of Lebanon, to prolong the occupation of the French army in Syria for at least a year, in order to secure them from a renewal of the massacres, which they greatly dread.

In Burmah, when a young woman is ill, her parents agree with a physician, that if he cures the patient, he may have her for his trouble, but she dies under his medicines, he is to pay them her full value. It is stated that some of the successful physicians have large families of females who have become their property in this manner.

The Bombay Gazette states: "An intelligent young Brahmin gentleman, of the name of Gunputram Doolputram, has recently set a noble example to his countrymen, by marrying a young widow of his caste. Seventy-five Hindoo gentlemen were present at the wedding." This disregard to the prejudices of his countrymen is likely to be attended with important consequences.

English sprig of nobility, who, after leading for many years a dissolute and most tempestuous life, has at length come to genuine madness, and the salutary restraint of a hospital. Poor fellow!—his name was too much for him.

Another scandalous case is before the English courts. Sir C. H. Rumbold, nephew of Lord Radcliffe, deceased, has brought an action against Mr. and Mrs. Forteach, of Bunbury Hall, Notts, to recover property of \$7000 a year, bequeathed to her by his lordship. The circumstances are curious enough. The wife of Lord Radcliffe was a proud lady of rank, who ran off with one of his servants. He then formed an intimacy with a Mrs. Burtt, and left her his property at his death. Mrs. Burtt, becoming wealthy, married Mr. Forteach, and they are living in style on her ill-gotten fortune. The will, it is alleged, was fraudulently obtained.

The dispatches which passed between Warsaw and St. Petersburg, on the occasion of the recent trouble in the former city, are examples of the "soul of wit." The first dispatch from Warsaw to St. Petersburg was simply in French, "emute." St. Petersburg replied—"Supprime it." Warsaw—"It is done." St. Petersburg—"How many dead?" Warsaw—"Six dead, six wounded." St. Petersburg—"And on our side?" Warsaw—"None dead, none wounded." St. Petersburg—"What arms taken on the insurgents?" Warsaw—"No arms." St. Petersburg—"I do not understand. Send Karinecki to me."

## TO ADVERTISERS.

All advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

## Notice to Subscribers.

Subscribers to the DAILY or WEEKLY BRITISH COLONIST, in British Columbia or Washington Territory, are hereby notified that on and after this date all papers will be sent by MAIL, unless specially ordered by some other conveyance.

## Gratuitous.

Notices of Divine Service and Advertisements of Marriages or Deaths inserted GRATUITOUSLY.

Tuesday Morning, June 11, 1861.

## Postal.

A short time ago an advertisement appeared calling for tenders for the conveyance of this mails in British Columbia. Since which there has been no intimation of the acceptance of tenders, nor of the transmission of the mails. The country is wholly indebted to private enterprise for the transmission of letters and newspapers. Were it not for the Express Companies, it would be next to impossible either to get a letter into or from the interior of British Columbia. And yet a Postmaster General is kept at New Westminster at a large salary, whom we can only regard as a sinecrist. It would be much better to make the office a non-salaried one, and appropriate the money to support mail communication with the interior. In the present state of British Columbian finances, we regard a salaried postmaster at New Westminster like a fifth wheel to a coach, not only useless, but a clog. There are plenty of reliable traders there who would transact the trifling business of the department for a mere nominal consideration. Our Postmaster-General receives all the British Columbia letters and papers from abroad, and forwards them without any cost whatever, and vice versa. If we can afford to work without consideration for our neighbors we see no reason why they cannot do the same thing for themselves, particularly when the saving would promote mail facilities through the interior of the country.

A very great necessity exists for the establishment immediately of a postal route between New Westminster and the Forks of Quesnelle river. It should traverse both routes to the interior: the one via Yale and Lytton, and the other via Port Douglas and Cayoosh. From either Cayoosh or Lytton another line should be extended to the Forks of Quesnelle. There are nearly 1500 miners in that section at present. They are completely shut out from the world so far as either sending or receiving private correspondence, or even receiving the local newspapers, except by express. The enterprise of the express companies creates the only link between them and the outer world. But the expense—two dollars, for instance, on a letter from Quesnelle River to Victoria—is so great that they cannot afford it: neither can the expressmen, under existing circumstances, transmit them cheaper. If the country lost money directly on the outlay, it would all, and more, be made up indirectly. It is well known that cheap postage increases correspondence. If only one thousand of the Cariboo miners send each a letter once a month abroad, their glowing accounts of the rich gold discoveries in that quarter would be distributed more widely and more effectually than by almost any other means. The consequence would be a very large accession to our population from abroad—just the thing the country wants. We want the miners of California, Oregon, and elsewhere, to be woken up to the importance of our gold-fields; and we can see no more sure method to do it than to afford their friends a cheap, regular, and speedy mode of transmitting correspondence.

A mail route is also required to Smilkan and Rock Creek. The importance of those sections are not so great as the Northern Mines; yet they are important enough to encourage them by mail facilities. There is one thing to which we put in a decided objection, that is, to give out contracts for a long period: six months, or a year, at the utmost is sufficiently long enough. We want to see enterprise of another kind started. Stage lines and passenger pack trains are required in British Columbia. As soon as the roads are fit for Concord wagons, we want to see them running over the various routes. Passenger trains are now being started. Such enterprises deserve encouragement. It is usual for them to convey the mails; consequently if mail contracts are given out, such parties should have a semi-annual or annual opportunity to tender for the conveyance of the mails. Moreover, as the country fills up, where a weekly or semi-monthly mail was sufficient, it will be found that a daily one will be necessary. Besides the natural increase of mail matter would call for additional subsidies. Hence the better mode is to let mail contracts for short periods.

INDIAN KILLED.—On Thursday last the body of a Nanaimo Indian was found near that town pierced by several bullets. He had not been dead long when discovered. The deed is supposed to have been committed by one of his own tribe while under the influence of that curse of the race—whisky.

Greeley's Bourbon Bitters.—These

celestial Bitters possess all the nourishing and invigorating properties of Old Bourbon Whisky, in combination with many simple Alteratives and Bitter Tonic, calculated to act upon every part of the digestive organs, and through them to reach and cure all complaints arising from a diseased condition of the stomach and bowels.

Greeley's Bourbon Bitters are highly nourishing and strengthening, and as a Tonic for Old People, delicate Ladies, Consumptive Patients and weakly persons, they cannot be surpassed. In all cases of Weakness and Debility they will give immediate relief, and impart a strong, healthy tone to the system. For the cure of Dyspepsia, Indigestion, Nervous Diseases, Liver Complaints, Weakness or Debility, Flatulency and Nausea, and all complaints consequent upon a disordered state of the stomach, Liver and Bowels, they are not equalled. As an agreeable stomachic, they are much admired, they sharpen the appetite, brighten the intellect, and infuse new life and vigor. So one who uses these Bitters can be subject to an attack of Fever and Ague or Diarrhoea.

Put up in quart bottles, in cases of one and two dozen, and for sale by Druggists, Grocers, Liquor Merchants and Saloon-keepers everywhere.

GEO. W. SNELL, Agent.

# AUCTION SALES.

## SALE OF SHEEP AND CATTLE!

The Stock of Sheep on the

FARM OF CRAIGFLOWER,

And also a large number of Cattle, including Cows and Calves, and a few Horses, (principally young stock) not put to Auction at the recent sale of live stock on the farm, will be sold in lots by

## PUBLIC AUCTION,

On Wednesday, 3d July next.

This fine healthy flock of Sheep, bred by Mr. Mackenzie with the greatest care during a series of years back, from the best English blood specially selected and imported, comprises the following, viz: 300 to 400 Ewes, Southdown 100 to 150 Ewe and Wether Lambs, Southdown 50 Ram Lambs, Southdown 70 to 80 Rams. From 1 to 4 years old, a few of which have been imported direct from England.

There will also be sold at the same time, (if not previously disposed of) 3 fine Hampshire Down Rams, imported from England by the Hudson's Bay Company THIS YEAR.

An opportunity so rare is well worthy the attention of farmers wishing to improve their breeds of stock. Credit for 3 months on bills with approved security will be given, or 2½ per cent discount for ready money will be allowed on all purchases amounting to \$50 and upwards.

Further particulars may be learnt on application to Mr. Mackenzie, at the Farm, or to Dr. Tolmie or Mr. Munro, at Victoria.

The sale will commence on the Farm, at 11 o'clock, A. M., and conditions of sale will then be read. Jell

# THE BRITISH COLONIST

Tuesday Morning, June 11, 1861.

## LETTER FROM BEAVER LAKE.

[FROM OUR SPECIAL CORRESPONDENT.]

NO. VIII.

BEAVER LAKE, May 13th, 1861.

EDITOR BRITISH COLONIST:—I wrote you a rather hurried letter from Williams' Lake on the 9th inst. The pack-train I am traveling with left Davidson's the same day, and we reached Beaver Lake this morning. The trail via Mud Lake, which is now used, owing to the cut-off being blocked up by fallen timber, is about 52 miles in length. Part of the distance between Williams' and Mud Lakes lies through the valley of the Fraser by the road to Fort Alexander. The trail, although there are a few swampy places, is not by any means a bad one.

### STORES—POISON.

There are two stores at Beaver Lake, one kept by DeShields and the other by Messrs. Sellers and Robinson. The latter are also going to ranching. The extent of grazing land is limited to a few hundred acres. A poisonous plant which grows near the lake proves very detrimental to horses, having caused the death of several last year.

### FROM ANTLER CREEK.

The news from Antler Creek is most exciting in its nature, and if one-half of the reports which are in every one's mouth are correct, a golden region has been struck around Cariboo which will yet find an echo throughout the world and cause a rush to British Columbia that will throw the memorable one of 1858 completely in the shade. Not only has Antler Creek proved richer than was at first surmised; but the tributaries of the creek and small gulches in the neighborhood have, it is said, yielded still richer prospects. A man who had the second pick of the claims on Antler tells me to-day that from the prospect obtained it ought to pay ONE THOUSAND DOLLARS A DAY! The sum of \$2000 has been refused for a share in the company. Rose, Macdonald, Bowen & Co., the first who struck the diggings, have commenced working with sluices. The claim which I mentioned in my last as having already yielded \$3000 is located higher up the creek. Antler is considered to be about 30 miles in length from its head to where it flows into Bear River, and from 15 to 20 miles towards its mouth has not yet been prospected. The claims are 100 feet in length. Some miners tried to have the size cut down to 25 feet (a la Rich Bar) during the excitement attendant on the first discoveries; but they were in a minority. When the Commissioner was there a short time back, more than 100 claims were recorded in one day.

### KEITHLEY'S CREEK.

Which flows into the North Fork, is 20 miles from the Forks and 15 miles this side of the Antler diggings, from which it is separated by a tolerably high mountain. The mines on Keithley's were found much richer last year than was generally supposed. Parties who declared they were only making expenses were seen this year coming in with a large pack-train, and upon being questioned confessed that their claim averaged \$50 a day. Three miles of this creek will be flumed during the summer, several companies having joined together to carry the work through.

### OTHER CREEKS.

Cunningham's Creek lies between Keithley's and Antler, and is said to pay well. Goose and Harvey's Creeks are also beyond Keithley's, but in a different direction from Antler. They flow into the North Fork of Quesnelle. Good accounts have come to hand from the first of these streams, which contains nothing but coarse gold, from 2 bits and upwards. Plenty of quartz boulders are scattered about the banks, and a rich lead containing silver crosses the creek. On Harvey's Creek the bed-rock is deep and hard to get at. I hear there were six companies working last year, four out of whom broke, and the other two netted \$1500 and \$2000 a share respectively. Considering the shortness of the season, the hauls which have been made in the Cariboo country are very respectable; but according to all accounts they are but a fraction of what the earth will bring forth this year.

### SNOWSHOE DIGGINGS.

The section of the mines lying to the northward of Keithley's is known by the name of the Snowshoe Diggings, and comprises Antler and Cunningham's Creeks, and their tributaries. On the other hand, the term Cariboo Country is applied to the creeks along the North Fork of Quesnelle to the eastward of Keithley's. Other tributaries of Bear River are supposed to head in the Snowshoe country; but owing to the white mounds at present spread over the land, nothing certain is known respecting them. To conclude summing up these mining items, I must state that every man I have spoken to who has been in the Snowshoe country is in ecstasies when describing its appearance, and the old '58 men, who have stuck to the country, are unanimous in saying that "there can be no mistake this time!" There is any quantity of quartz in every shape and form, and the bed-rock, (generally a kind of burnt slate) is near the surface earth, through which it often projects.

### BUSINESS—CHINAMEN.

Business has been brisk both here and at Williams Lake during the spring, and more than 1000 men, including 150 Chinamen, were reported at the Forks a short time ago. Numbers were leaving there every day owing to the good tidings from the mines. The boys got on a spree one night and drove the Celestials from the town.

### THE TRAIL TO FORKS CITY.

Pack trains got through from Beaver Lake to the Forks on the 20th April. The trail is described as being in a frightful condition, and hardly any packers got through without the loss of two or more animals. The snow is four and five feet deep for a short distance this side of Quesnelle, and the hill-side leading down to the Forks is described as a perfect sheet of ice, through which steps had to be cut out with axes. The packers and residents at Forks City are now employed in bridging over the worst places on the road, in order to prevent the traffic from being completely cut off. Packing from Beaver Lake costs 10 and 12 cents per lb., and the distance not over 22 miles. This amounts to more than 50 per cent. of the charge for packing along the whole route from Yale

up, so you may judge what condition the trail is in. There is no feed after you leave Mud Lake, and barley is not to be had at any price, with the exception of a little stored last fall by some of the owners of the largest trains for their own use. Had the grain been here, some 15 or 20 tons could have been sold at 30 cents per lb. These sort of figures ought to cause a speedy settlement of the fine country along the Brigade Trail.

### PACKING.

During the last week we have met pack-trains at the rate of four or five a day returning from the Forks. The number of animals packing between Yale, Lytton, Cayoosh and the upper country is estimated at nearly 2000, and the prices of mules and Cayuse horses are on the rise. Horses coming in from Oregon are snapped up at prices varying from \$80 to \$90 a head. A lot of 18 were bought on the road the other side of Davidson's Ranch for \$70 each, and were considered a bargain.

### OREGON PACKERS.

No cattle and but few trains have as yet arrived from Oregon, and it is thought the number on the way is not so great as anticipated, owing to the reports spread about that very heavy and almost prohibitive duties had been imposed on the frontier. In some cases where the packers from Oregon were without money, or tried to smuggle across goods sufficient to pay the duties were seized by the Collector at Rock Creek. The duties and fines cannot altogether amount to more than 15 per cent. *ad valorem* duty, which is very far from being prohibitive, as those Oregonians who are coming through this year will find when they balance their accounts in the fall.

### OUT OF DEEP.

There is no beef in the market at present. Davidson kept a few beeves on his ranch during the winter which were sent up to Quesnelle and retailed at fifty cents per pound.

### HORSEFLY.

I see a statement in the papers since I left Victoria to the effect that \$50 to the pan had been obtained from the Blue Lead on Horsefly Creek. This must be a mistake, as there is not a soul working there, nor has there been for some time. This stream, although some rich prospects were taken from it in 1859, did not pay at all when it came to be worked. The Blue Lead claim which was so much talked about only paid \$4 and \$5 a day, and was deserted by the company. It was afterwards worked by a party of Frenchmen later in the year, when the water was lower, who took out a considerable sum of money. They returned again last year, but after fluming the creek and going to a great deal of expense, nothing was found. I will give you further particulars of the country around Horsefly in a future letter. The pack-trains, consisting of Cayuse horses, will keep to the roads between Williams Lake and Cariboo, as they are better able to get through the mud. The mules will mostly pack between the Lake and the Lower Fraser.

### LATER FROM SNOWSHOE.

I have just received later information from Snowshoe, from a miner who has been up there prospecting and whose account can be relied on. He states there are plenty of creeks in the neighborhood of Antler; but it is impossible to prospect them, the snow being from 8 to 10 feet deep. Snowshoes were hard to get at \$20 a pair. The whole of Antler Creek had been taken up from its head to where it widens and runs over a large flat. It was almost impossible to get provisions up, as nearly all the Indians had gone on their usual fishing excursions to the lakes. Frank Fellows obtained four after a great deal of trouble and had to pay them \$40 each, besides provisions for the trip from the Forks to Keithley's. There was not more than 20 cwt of provisions at the latter place, which were selling at \$1 per lb. My informant met crowds of men going up while on his way down, and says they will all have to come back, as it will be almost impossible to prospect the country until the middle of June.

### FEARS OF A RUSH BACK.

Some men had been hired to work in claims in Keithley's Creek at \$8 a day and find their own provisions. This being the case, people in Victoria must make up their minds to hear of a rush back of disappointed miners from Cariboo, as numbers will not have sufficient money to keep themselves until the country is open. It is to be regretted that the work of making good trails has not been commenced so that miners could find employment in this part of British Columbia.

### PORT ALEXANDER.

The town lots at Alexander, are, it is said, to be sold shortly, although what good is to be derived from laying out a town where there are only half-a-dozen men, puzzles people here rather.

### PRICE OF GRUB.

Flour is worth 38 to 40 cents and bacon 75 cents, at Forks City.

### OFF FOR QUESNELLE.

The train (not a locomotive) starts tomorrow for the Forks and I hope to reach there in two days, when I will send you a letter should anything new occur.

### ARGUS.

FROM PORT TOWNSEND.—The sloop Petrel, Taylor master, arrived from Port Townsend yesterday morning. She brought copies of the *Register Extra* of Saturday last, issued on the arrival of the U. S. lighthouse steamer Shubrick, with pony dispatches to the 20th—the same dates as those received here by the bark Glimpse. The Shubrick will furnish the lighthouses with everything needful, and returns as soon as possible to San Francisco.

CONVICTED.—The Siwash who tried to make a hole in Sergeant Blake's corpus, on Saturday evening last, with a huge bowie-knife, was convicted of the offence, and ordered to pay a fine of \$2, or suffer two months imprisonment. With regard to the bundle of *skits* found upon the native, they await a claimant at the barracks before judgment is passed for stealing.

WAYS.—Workmen were engaged yesterday in setting ways for Scorgie, Bollen & Co.'s new shipyard, at the Songish Indian village.

A summons has been issued by the Police magistrate for the appearance to-day of a prominent citizen of North Saanich, on a charge of harboring runaway sailors.

GREAT ADVANCE IN GENERAL MERCHANDISE.—We yesterday briefly alluded to the fact that American-manufactured goods at San Francisco had advanced materially in price. Flannel shirts, formerly sold at \$12 per dozen, now sell readily for \$16 50; duck pants have jumped from \$6 75 per dozen to \$9; sattinet pants, from \$22 50 to \$33; duck, (No. 1), from 29c. per yard, to 37½c; undershirts and drawers, \$1 per doz. higher; mining tools, agricultural implements, nails, boots and shoes, and candles, 10 per cent. advance; blankets, 75 cents per pair; all other articles in proportion. The same advance is now or will soon be observed here. Tobacco in this market has gone up 20 per cent. since the reception of the news of the secession of Virginia; and Havana cigars from 6 to 10 per cent. The rate of insurance and exchange between San Francisco and New York is now six per cent., an increase of from three and a half to four per cent. The excuse given by bankers is the liability to seizure by privateers, of California steamers. The danger is believed to be very much exaggerated; but the rates are nevertheless demanded and readily paid by shippers of treasure. For the first few months of the war the increased value on this coast for nearly every article of daily consumption now imported will be severely felt by all classes; but in the end an impetus will be given to home manufactures in California which cannot but prove of lasting benefit. Added to which, English and French manufacturers, deprived of markets for their merchandise by the blockade of Southern ports, will ship unlimited quantities of necessities to the Pacific, and as their vessels are not liable to seizure, they will be enabled to undersell the Americans, and for a time supply the coast with the greater portion of the articles it will stand in need of.

COAST ROUTE MEETING.—An adjourned meeting of citizens of Victoria, to take into consideration the feasibility of exploring the coast route from Bute Inlet to Cariboo, was held last evening at the Industrial Exhibition Committee room. J. Despard Pemberton, Esq., was called to the chair, and Robt. Burnaby, Esq., appointed Secretary. The committee appointed at the previous meeting reported: 1. That they were of opinion that such exploration was desirable. 2. That the exploration commence at Bute Inlet and extend not further North than Knight's Canal, and that \$1000 be raised for the purpose. 3. That application be made to His Excellency for pecuniary aid and for a gunboat to convey the expedition to the starting point and to afford protection. Remarks were made by several gentlemen and the report was adopted. The committee was then continued and empowered to wait on His Excellency to solicit a donation of \$500, and also to collect a like amount from citizens. A vote of thanks to Alfred Waddington, Esq., M. P. P., for the interest he had taken in the enterprise, was passed amid much applause. About \$200 was subscribed on the spot, and the meeting adjourned *sine die*.

FEARFUL OF AN ATTACK.—Several Tit-china Indians, whose place of abode is on the Straits near San Juan harbor, made complaint yesterday at the Police Barracks that a large number of Euculet warriors from Cape Mudge had encamped at Cordova Bay, and were preparing to make a descent upon the Tit-china village. The complaining aborigines seemed half-frightened to death at the prospect "cleaning out" they were to undergo at the hands of their enemies, and begged for protection for themselves and families. Chief of Police Smith assured them that every possible precaution would be taken to prevent the contemplated raid. They withdrew apparently more at ease.

SUPREME COURT.—In this Court yesterday Attorney-General Cary continued his very able argument in behalf of the injunction, and claimed that as there was no remedy in law, equity was the only resort. At 2 o'clock, P. M., the Court adjourned till 11 o'clock to-day.

SELLING LIQUOR WITHOUT A LICENSE.—Wm. Rothwell of Esquimalt was before Mr. Pemberton yesterday at the Police Court, charged by Sergeant Blake with having, at 5 o'clock on the morning of May 28th, sold a man a bottle of gin for five bits. The accused pleaded guilty and was fined \$20, being allowed one week in which to pay.

THE "TARTAR".—The mail and express per H. M. S. Tartar closed at four o'clock yesterday afternoon. The vessel will leave for San Francisco at 5 o'clock this morning. Wells, Fargo & Co. shipped by her \$35,000 in gold dust.

EVENING FESTIVAL.—A festival or tea meeting will be held this evening at the Wesleyan Methodist church. Great pains have been taken to make the reunion a pleasant one, and we trust to see it well attended.

ASSAY.—Five ounces of coarse gold, from the substratum on Hill's Bar, B. C., were yesterday assayed in this city and yielded \$16 97 per ounce.

THE "GLIMPSE".—This bark was towed out of the harbor yesterday afternoon by the steamer Caledonia. She goes to Port Ludlow to load with lumber.

The Saanich district was again unsuccessfully searched by the Police on Sunday last for the runaway sailors. They are safe on the other side by this time, no doubt.

SEIZURE OF THE "TRUE BRITON".—This British vessel, it is reported, has been seized at San Francisco, and will not come on to this port. Her cargo is very much damaged.

The W. D. Rice will sail this morning for Port Discovery to load with lumber for the San Francisco market.

Additional from the River.  
From a copy of the *British Columbian* of the 6th inst., kindly handed us by Capt. Hall of the schooner Nanaimo Packet, we clip the following:

Mr. Cook, of the firm of Cook & Kimball, Lytton, chartered the Nanaimo Packet on Thursday of last week, and returned to this port on Tuesday last with a cargo of merchandise. Now that the pilotage is removed from this class of vessels, we begin to realize the use of them, as this is the second time the Nanaimo Packet has brought us the Eastern news in a lance of the steamer.

The work on the Smilkameen Wagon road, under Capt. Grant, R. E., is progressing famously. Upwards of eight miles are completed and in excellent condition. There are 70 sappers and 50 civilians at work. Gov. Douglas paid them a visit at the works on the 20th May, and expressed himself highly pleased with the road.

The Customs Revenue for the week ending June 4, were—Duties, £502 4s.; Harbor dues, £6 12s. 6d.; Head Money, £7 12s.; Warehouse fees, £0 16s.; Tonnage Dues, £225 19s. Total, £743 3s. 6d.

The customs receipts for 1861, to the end of May, are, in round numbers, £16,300, against for the corresponding months of 1860—£12,300, or an increase of 33 per cent. A ratio which, if it continues to the end of the year, would give us £16,000 against £35,200 in 1860; a result which, all things considered, speaks well for British Columbia.

Mr. Cormac, one of the New Westminster Town Councillors, has introduced a series of resolutions having for their object the establishment of a Colonial Land Office at that point.

### BIRTH.

In this city, June 9th, the wife of J. C. Colquhoun, Esq., of a daughter.

### DIED.

At Boston Bar, Fraser River, in April last, Frederick Gibbons, formerly from Bangor, Me., where it is supposed his friends now reside.  
Maine papers please copy.

**Hostetter's Celebrated Stomach Bitters.**—No medicine has ever achieved a higher reputation. In every section of the country its merits are known and fully acknowledged. The leading physicians in the country have expressed their warm approval of this preparation, as uniting all the best qualities of a tonic and invigorator, without kindling an appetite for alcoholic liquors. In cases of diseases of the digestive organs, to which all uncleanly diet and overeating are exposed, as the prevailing remedy yet discovered. Diarrhoea, Dysentery, and the various bilious and intermittent fevers, all yield to the curative properties of this medicine. No person should be without the Bitters in a single day. For sale by all Druggists and Dealers generally everywhere, and by  
GEORGE W. SNELL,  
my 10 3m 130 Washington street, San Francisco.  
For sale by W. H. OLIVER and J. D. CARROLL, Victoria.

**Dr. Wm. Hall's Balsam, a Great Remedy for COLD and CONSUMPTION.**—Port Ari-  
tices, Shelby Co., June 10, 1860.—Messrs A. L. Scovill & Co.—Dear Sirs: I formerly lived in Filmore, Putnam county, Indiana, and while I was there I was attacked with a violent cough, which reduced me very low, and I tried several remedies all to no purpose, and finally one of my neighbors came and told me about Dr. Wm. Hall's Balsam for the Lung, being very highly recommended for such diseases, and by recommendations I was induced to try the remedy. I used only TWO BOTTLES, and it CURED ME.

For sale by all Druggists and by GEO. W. SNELL, Agent, (successor to Park & White,) 139 Washington street, San Francisco. my 10 3m

**Two Children Cured of Scrofula**  
Cincinnati, March 4, 1859.—Messrs. A. L. Scovill & Co.—Dear Sirs: This is to certify that my two children have been afflicted with SCROFULOUS ULCERS. I tried your Blood and Liver Syrup, which cured them in a remarkably short time. My wife has been afflicted for many years with the most troublesome disease—Tetter and Rheumatism—and has used a good many remedies, which have failed to cure her; this remedy has made a radical cure. If any one wants a medicine for purifying the blood, they will find the above named among the best now in use.  
JAMES C. MISENER,  
Formerly of the firm of Trainer & Misener,  
Two doors below the Gibson House.  
Scovill's Blood and Liver Syrup is warranted not only to cure Scrofula, Tetter and Rheumatism, but all humors of the system, such as scres and pimples on the skin, scald-head, etc.  
For sale by all the principal Druggists and by GEO. W. SNELL, Agent for the Pacific Coast, 139 Washington street, San Francisco. my 10 3m

For Scrofula and Disordered Blood, the best and only reliable preparation is SCOVILL'S BLOOD AND LIVER SYRUP of Sarsaparilla and Sillingia, for the immediate relief and permanent cure of SCROFULA, and all diseases arising from an impure state of the Blood or habit of the system. The proprietors have in their possession over one hundred certificates of the most extraordinary cures of Scrofula affection. Ulcers, Tumors, Salt Rheum, Enlargement of the Joints and Glands, and Diseases of the Skin. We only ask you to try it. It does not give perfect satisfaction, and eradicate the disease, the money will be refunded by the Agent. It has received the sanction of our most eminent physicians and chemists in the Eastern States, among whom is Prof. H. S. Newton, editor of the Medical Journal, and Professor in the Cincinnati Medical Institute. A correct formula is submitted to EVERY ONE who desires to know the ingredients of Scovill's Blood and Liver Syrup, that they may know exactly what they are using.  
For sale by the principal Druggists, and by  
GEO. W. SNELL,  
Agent for the Pacific Coast,  
512 and 514 (old No. 13) Washington street,  
opp. the Market San Francisco.

Hostetter's Celebrated Stomach Bitters. A specific for dyspepsia, diarrhoea, dysentery, general debility, chills and fever, liver complaint, bilious remittent fevers, and the pains and weakness which creep upon us as old age. For these ailments we quietly invited a trial and a verdict. The trial has come off, the verdict has been rendered, and the Bitters are to-day the most popular remedy for the time they have been in existence, in this or any other country. It lives and continues to thrive and increase in popularity with marvelous rapidity, simply because the world wants it, will have it, cannot do without it. The dyspepsia demands it as his only help, the victims of diarrhoea or dysentery believe in it, the bilious sufferer dare not let one bottle run out before he gets another. Both sexes, all ages, all classes, regard it as the most wonderful invigorant ever compounded. Hence the enormous demand.

brance, their  
**SAWMILL AT SOOKE,**  
—AND—  
**600,000 feet of Saw Logs**  
In the vicinity of the Mills and convenient to  
the water, with a fine tract of land densely wooded, the  
timber being mostly red fir and spruce.  
The Mill is driven by an 80-horse power Engine,  
having a capacity of working 40,000 feet of lumber  
in the 24 hours.  
The proximity of this property to Victoria and  
the facilities for supplying the market with lumber  
at a very low rate, render it one of the best and  
safest investments in the colony.  
For price and further particulars apply to the  
subscribers, or to Macdonald & Co., Yates street, for  
the Messrs. Muir.

ATLES & BLACKHAWK.

DRUGS & MEDICINES.

**HEALTH FOR A SHILLING!**  
**Holloway's Pills.**  
Headaches, Bile, Loss of Appetite, and  
Lowness of Spirits.  
These Pills require no interruption of business or  
pleasure; they act mildly on the bowels, regulate  
the stomach, and promote a healthy action of the  
liver, whereby they purify the blood, cleanse the  
skin, brace the nerves, and invigorate the whole sys-  
tem. They effect a truly wonderful change in de-  
livered constitutions, as they create a healthy ap-  
petite, correct indigestion, remove bile, giddiness, head-  
aches, and palpitation of the heart.  
**Weakness and Debility.**  
In cases of debility, languor, and nervousness gen-  
erated by excess of any kind, whether mental or phys-  
ical, the effect of these Pills is in the highest degree  
bracing, renovating and restorative. They drive  
from the system the morbid causes, disengage the  
tubular digestion, regulate the secretions, brace  
the nervous system, raise the patient's spirits, and  
bring back the frame to its pristine health and vigor.  
They increase the appetite, while they secure per-  
fection to all ordinary food, and release the invalid  
from restraint in diet.  
**A Word to Females.**  
There are two points especially in a Woman's life,  
which require for safe passage, judgment and atten-  
tion. Irregularity is apt at those critical times to  
take place, and to lay the foundation of future dis-  
ease. These Pills, safe in action, and effective in re-  
sult, should be taken at certain periods, and the issue  
will be marvellous both to the young and the middle  
aged. They prevent nervousness, hysterics, drowsy-  
ness, and a host of similar serious disorders, by expelling  
all impurities from the system, therefore none should  
ever be without them.  
**Coughs, Colds, and Asthmas.**  
No medicine will cure colds so quickly as these  
Pills, which, if continued or settled on the chest,  
or even though it has assumed the first stage of asth-  
ma, they may be relied on as a certain and never  
failing cure, particularly if the Ointment be well rub-  
bed into the chest and throat, and the system moved in the  
evening by the use of these pills. A cold may be crush-  
ed and given as a powder in a little water. The gross  
humors that are constantly floating about in the  
blood of children, the forerunners of so many com-  
plaints, will thus be expelled, and the lives of thou-  
sands saved and preserved to their parents.  
**Holloway's Pills are the best remedy known in the  
world for the following diseases:**

Ague	Dropsy	Inflammation	Sore Throat
Bilious Com-plaints	Jaundice	Liver Com-plaints	Stomachic Gravel
Blotches on the face	Female Irregularities	Piles	Secondary Syphilis
Bowel Com-plaints	Fever of all kinds	Rheumatism	Tic-Doulou-reux
Colic	Fits	Retention of Urine	Tumours
Constipation of Bowels	Headache	Scrofula, or King's Evil	Venerical Affections
Consump-tion	Indigestion	Worms of all kinds	Weakness of the system
Debility	Ulcers		Whatsoever cause

There is a considerable saving by taking the  
larger sizes.  
In all directions for the guidance of patients in  
every disorder are affixed to each Box.

CUTLIS & MOORE, Sole Agents for Vancou-  
ver Island

**Greeleys' Bourbon Bitters.**  
THE POPULARITY OF THESE BIT-  
ters is justly due to the purity of the materials  
of which they are prepared, and the delicate combi-  
nation of simple alteratives and tonics so well cal-  
culated to act upon every part of the digestive organs,  
and through them to rectify a strong, healthy ton-  
ic, and cure a diseased condition of the Stomach  
and Bowels.  
GREELEYS' BOURBON WHISKY BITTERS  
are highly nourishing and fattening, and as a Tonic  
for old people, delicate ladies, consumptive patients,  
and all weakly persons, they cannot be surpassed. In  
all cases of Weakness or Debility, they will give im-  
mediate relief, and impart a strong, healthy ton-  
ic to the system. For the cure of Dyspepsia, Indigestion,  
Nervous Diseases, Liver Complaints, Weakness or  
Debility, Flatulency and Nausea, and all complaints  
consequent upon a disordered state of the Stomach,  
Liver and Bowels, they are not only efficacious, but  
agreeable and pleasant. As an agree-  
able tonic, they are much admired; they sharpen  
the appetite, brighten the intellect, and infuse new  
life and vigor. No one who uses these Bitters can be  
subject to an attack of Fever and Ague or Diarrhea.  
Put up in Quart Bottles, in cases of one and two-  
dozen, and for sale by Druggists, Grocers and Liquor  
Merchants everywhere.

For sale by W. H. OLIVER, Victoria.

**Old Sackem Bitters & Wigwam Tonic.**  
THESE UNEQUALLED BITTERS  
are a tonic and a purgative, and are sold with unparal-  
leled success, and favor with consumers. In all cases of  
DYSPEPSIA, DEBILITY, LOSS OF APPETITE, or  
any irregularity of the stomach, they will be found an  
efficient remedy, as well as a most wholesome and  
agreeable Tonic.  
As a preventive of Chills and Fever, they have no  
equal, and have with thousands become an indis-  
pensable family medicine; being perfectly pure, and free  
from any deleterious substance, can be taken by all,  
young and old, male and female, with benefit.  
For sale by GEO. W. SNELL, General Agent, San Francis-  
co, and by all principal Grocers, Druggists and Wine  
Merchants throughout the country.
